- PROBLEM-SOLVING
- TEAMWORK
- TIME MANAGEMENT
- ADAPTABILITY
- CREATIVITY

EXPERIENCE

Associate Software Engineer Lilac Infotech – Calicut <ul style="list-style-type: none">• Developing full-stack web and mobile applications with Laravel and modern front-end tools.• Contributing to architecture design, code optimization, and feature enhancements for client-based projects.	Jan 2025 – Present On-site
PHP Laravel Developer Niveosys Technologies Pvt Ltd – Calicut <ul style="list-style-type: none">• Developed and maintained Laravel-based web applications with RESTful APIs.• Enhanced front-end integration for better user experience.	Aug 2024 – Jan 2025 On-site
Laravel Developer Savior Soft Solutions – Kollemcode <ul style="list-style-type: none">• Built scalable Laravel applications with efficient database structures.• Implemented user authentication and secure session handling.• Collaborated with teams for project planning and code reviews.	Jan 2023 – May 2024 Hybrid

COURSE

- PHP Full-Stack Development - Scope India - Thiruvananthapuram

EDUCATION

- B Com 2019 to 2022 - St. Joseph's College, Trichy

PROJECTS

Food Delivery App

A subscription-based food ordering platform where users can select meals from specific kitchens, schedule delivery by time and date (morning, afternoon, night), and manage orders efficiently. Designed for high usability and performance, supporting both veg and non-veg menus.

Technologies Used: HTML, CSS, Bootstrap, JavaScript, AJAX, jQuery, PHP, Laravel, MySQL

Cab Booking App

A real-time cab booking system allowing users to book rides, track drivers on a live map, estimate fares, and manage trip history. Includes driver management, location tracking, and OTP verification.

Technologies Used: HTML, CSS, Bootstrap, JavaScript, AJAX, jQuery, PHP, Laravel, MySQL

Trading Platform

An interactive platform for users to buy and sell financial instruments. Includes real-time market data, secure user authentication, portfolio management, and responsive design for seamless trading experience.

Technologies Used: HTML, CSS, Bootstrap, JavaScript, AJAX, jQuery, PHP, Laravel, MySQL

Hospital Management System

A centralized system for managing hospital operations including patient records, appointment scheduling, billing, inventory, and staff management. Improves workflow efficiency and reduces administrative load.

Technologies Used: HTML, CSS, Bootstrap, JavaScript, AJAX, jQuery, PHP, Laravel, MySQL

Billing Software

A lightweight, easy-to-use solution for generating invoices, tracking payments, and managing customer data. Tailored for small and medium-sized businesses.

Technologies Used: HTML, CSS, Bootstrap, JavaScript, AJAX, jQuery, PHP, MySQL

Job Searching Platform

An advanced job portal where users can search for jobs, create profiles, upload resumes, track applications, and receive job notifications. Employers can post jobs and manage applicants.

Technologies Used: HTML, CSS, Bootstrap, JavaScript, AJAX, jQuery, PHP, Laravel, MySQL

TCED CGRF (Thrissur Corporation Electricity Department)

A government-focused complaint and service management system enabling citizens to register electricity-related complaints and track resolutions. Includes admin panel, data centralization, and analytics.

Technologies Used: HTML, CSS, Bootstrap, JavaScript, AJAX, jQuery, PHP, Laravel, MySQL

Insurance Investigation System

A web and mobile solution for third-party insurance claim investigations. Supports field data collection, photo uploads, case tracking, and secure communication with backend teams.

Technologies Used: HTML, CSS, Bootstrap, JavaScript, AJAX, jQuery, PHP, Laravel, MySQL
